

Wide Awake

Kevin Ayers

Another night and I can't sleep
I need to cry but I can't weep
Feeling that I've lost control
Where's my spirit, where's my very soul?

What's the future? There's no cheer
Feeling too much doubt and fear
I hide and run, I run and hide
I just can't face the world outside my dreaming

Ooh, I'm wide awake and there's you
Giving me a shake and it's true
Love is what pulls us through

It's so good when you're by my side
No longer need to run and hide
And when I'm dancing, singing along
Nothing seems to be so right or wrong

Don't you worry, don't you sigh
It's not on you that I rely
You sing love, I sing along
Celebration in this song for you

Ooh, I'm wide awake and there's you
Giving me a shake and it's true
Love is what pulls us through

Ooh, I'm wide awake and there's you
Giving me a shake and it's true
Love is what pulls us through
