

Dynamite Daze

Coyne, Kevin

I only want to see you smile
You know I like it when you smile
It's such a marvelous smile
And you know it's deep like heaven
I want to be your friend
I truly want to be your friend
And the letters that I send
Are filled with heart and love dear
Chorus: A million lullabies
I can see them in your eyes
But last night the lies
Obscured the truth that I love you
Little girl, everywhere your arm surrounds me
Little girl, everytime, I'm glad you found me
It goes on and on
I'll always sing a song
Because our love is strong
We can wipe away the tears and silence
Hold me close
Just a little close
You can ease away the times and pain
And the sadness I felt before you
Chorus
