Talking To No One

Coyne, Kevin

Talking to no-one is strange, Talking to someone is stranger Yo
u might be in danger yeah If you say too much in this world

Being on your own is hard Being with someone is harder All the
confusion inside you And there's no-one to guide you

I once found a friend, someone I could care for Now that friend
 has gone, I might find a friend in the end

Chorus Ou know I want to Go back Somewhere Where the Warmth is,
 Anywhere, Oh I don't care

Talking to no-one is strange, Talking to someone is stranger Yo
u might be in danger yeah If you say too much in this world

Being on your own is hard Being with someone is harder All the
confusion inside you And there's no-one to guide you

I once found a friend, someone I could care for Now that friend
 has gone, I might find a friend in the end
