

# I Wrote It Down For You

Kevin Devine

I can feel it all without tryin'  
I can feel it all without tryin' hard  
She said I'm standing in your heart  
She said it's tearing you apart

I can turn it off when I wanna  
I can turn it off when I wanna stop  
She said "it isn't what you want"  
She said "it isn't who you are"

So I wrote it down for you  
So I wrote it down for you  
So I wrote it down for you

You can keep it in your corner pocket  
With yoga topics and your cough drop wrappers spin  
I figure you'll forget again  
I figure you'll forget again

First initial cut and folded card stock  
Slash is leanin' at a new foundation  
Feed, give yourself to me  
And then you showed myself to me

So I wrote it down for you  
So I wrote it down for you  
So I wrote it down for you

Love is anything you wanna make it  
Brushin' your hair with my hand around your throat  
We don't have to be alone  
I guess we never were alone

I exist and so do you  
If God is goosebumps you're the proof  
So I wrote it down for you
