

## Summer Ashes

Kevin Drew

We've been standing in the rain all night  
Crying happy tears for you  
And ever since we've met, things feel right  
Like when a crystal meets a sunshine  
I can burn up in your flame all night  
And spread my ashes of the summertime  
Cause in the summertime I feel alive

I can burn, burn up in your flame all night  
And spread my ashes  
Ashes of the summertime  
I feel just fine  
Making love all night  
I feel alive  
Dancing on the moonlight (2x)

Just a whisper gives me butterflies  
I'm getting drunk of all that love shine  
Real love like it's '69  
A revolution went through harsh times  
I can burn up in your flame all night  
And spread my ashes of the summertime  
Cause in the summertime I feel alive

I can burn, burn up in your flame all night  
And spread my ashes  
Ashes of the summertime  
I feel just fine  
Making love all night  
I feel alive  
Dancing on the moonlight (2x)
