When It Begins

Kevin Drew

```
Well, it's gonna be really hard when we get to the end
It's gonna be really hard when we get to the end
Well, you love the start but really it's just to begin
It's gonna be really hard when we get to the end

But don't forget what you said

Thought I was gonna die when we got to the end
Thought I was gonna die when we got to the end
Love the start but just to begin
Thought I was gonna die when we got to the end

But don't forget what you felt
```
