

# Bring It On

Kevin Fowler

I was born on the wrong side  
Of the tracks, and all my life  
I've had to kick and fight  
When the world comes after me

I ain't one to start a fight  
But I'll stand up for what's right  
This sleeping dog, he'll bite  
If you want to mess with me

Bring it on, hell, I ain't scared  
I've been beat up, beat down  
Walked on, pushed around  
But I'm still standing here

Bring it on, see what you got  
If you think you want a piece of me  
Then just give it your best shot  
Just bring it on

Yeah, bring it on

Mama said it don't make you weak  
If you turn the other cheek  
But I'll be damned if I'm whooped on  
Anymore

Like a snake, better let me be  
Oh, no don't tread on me  
If you mess with this bull, well, you just might  
Get the horns

Bring it on, hell, I ain't scared  
I've been beat up, beat down  
Walked on, pushed around  
But I'm still standing here

Bring it on, see what you got  
If you think you want a piece of me  
Then just give it your best shot  
Just bring it on

I've been knocked down once or twice  
Got right back up again  
When this world tries to get me down  
I'll pop it right on the chin

Say, bring it on, hell, I ain't scared  
I've been beat up, beat down  
Walked on, pushed around  
But I'm still standing here

Bring it on, see what you got  
If you think you want a piece of me  
Then give it your best shot

Bring it on, hell, I ain't scared

I've been beat up, beat down  
Walked on, pushed around  
But I'm still standing here

Bring it on, see what you got  
If you think you want a piece of me  
Then just give it your best shot  
Just bring it on

I said, bring it on
