

Ol' What's Her Name

Kevin Fowler

[Chorus:]

You made me forget about ol' what's her name
Well her memories are fadin' fast
Oh you put her in the past
Since you came through my door
Well, she don't haunt me anymore
Oh, you've saved me from the pain
I forgot about ol' what's her name

It seems liked just the other day
I was feelin' mighty lonely
That old jezebel had broke me right in two
Well, everyone I know
Told me man, you'd better let her go
She's gonna drive you to an early grave
Oh honey..

[Chorus]

I can't recall her eyes, her face
Not anything at all
I draw a blank anytime I think about her anymore
Many years have come and gone
And the thoughts of her linger on
Oh, I'm thinkin' about these days
Oh honey.

[Chorus]
