

Those Nights These Days

Kevin Fowler

We ain't old enough to be talkin' about
The old days and how we painted the town
All them good times and the crazy we did
Fake I.d.'s that used to get us in

We started early and we stayed out late
Put in some time for the girls we chased
We lost track of all the beers we drank
We were livin' out the songs we played
We sang 'em all 'til they shut us down
Tipped up a bottle and we passed it around
We worked hard for all the hell we raised
Sure could use some of those nights these days

It ain't been long but it's been too long
The more we talk about it the more we want
To call up the boys like we used to do
Find us a hill and howl the moon

We started early and we stayed out late
Put in some time for the girls we chased
We lost track of all the beers we drank
We were livin' out the songs we played
We sang 'em all 'til they shut us down
Tipped up a bottle and then we passed it around
We worked hard for all that hell we raised
Sure could use some of those nights these days

I miss that wild on the weekend
Feelin' like we're stealin'
A little more time
No time for sleepin'

We started early and we stayed out late
Put in some time for the girls we chased
We lost track of all the beers we drank
We were livin' out the songs we played
We sang 'em all 'til they shut us down
Tipped up a bottle and we passed it around
We worked hard for the hell we raised
Sure could use some of those nights these days
We worked hard for the hell we raised
Sure could use some of those nights these days
