

Precious

Kevin Garrett

I wasn't sleeping at all
When I saw you leaving
Kept thinking I should've called
But you wouldn't see it
I'm up way too late again
Thinking 'bout what you said
And how maybe you were trying to stall
But I walked right into the fall
Hoping you'd mean it

Oh now we're too far down for closure
No, can't you hear me now it's over
And if you're going please
Baby when you forget about me
Don't be so precious about it
Don't be so precious about it
And you'll save me
But I'll find a way around it
I'll find a way around it
Don't be so precious about it
And baby when you forget about me
Don't be so precious about it
Don't be so precious about it
Cause you'll save me
But I'll find a way around it
I'll find a way around it
Don't be so precious about it
About it, oh

I left my heart for the road
Cause I didn't need it, yeah
She wanted my flesh and bones
And I let her keep it
And I am the one to blame
For what's left of me has changed
There's nothing I would ever show, yeah
Nobody knows what she knows
And I got some secrets

Oh now we're too far down for closure
No, can't you hear me now it's over
And if you're going please
Baby when you forget about me
Don't be so precious about it
Don't be so precious about it
And you'll save me
But I'll find a way around it
I'll find a way around it
Don't be so precious about it
And baby when you forget about me
Don't be so precious about it
Don't be so precious about it
Cause you'll save me
But I'll find a way around it
I'll find a way around it
Don't be so precious about it
About it

And we're holding onto nothing, nothing
I've always been good at running, running
It's okay if I'm the one you're done with
That you're done with

But if you're going please
Baby when you forget about me
Don't be so precious about it
Don't be so precious about it
And you'll save me
But I'll find a way around it
I'll find a way around it
Don't be so precious about it
And baby when you forget about me
Don't be so precious about it
Don't be so precious about it
Cause you'll save me
But I'll find a way around it
I'll find a way around it
Don't be so precious about it
About it
