

## Something Like

Kevin Garrett

You sent me over the moon  
Over too soon  
Didn't know you could be like that  
And I let you under my skin  
While you're under him  
Baby, don't act like you're lonely

If you ever were to call me  
Still leave me on the line  
Open up the door, I'll fall in  
Believe you every time  
Want me just until the song ends  
But you might skip it twice  
Baby, I don't want your loving  
If it's something like  
Something like this  
Something like this  
Something like this  
Baby, I don't want your loving

All I keep thinking about  
Is what you walk around  
Maybe you meant to not show me  
Got nothing left in my cards  
Baby, you work too hard  
Just to pretend you don't know me  
But I'm only the one when I'm the only one  
You keep dreaming of me, guess the dream's good enough  
Yea I know I should leave when I'm left in the dark  
And it hurts but at least it's a start

If you ever were to call me  
Still leave me on the line  
Open up the door, I'll fall in  
Believe you every time  
Want me just until the song ends  
But you might skip it twice  
Baby, I don't want your loving  
If it's something like  
Something like this  
Something like this  
Something like this  
Baby, I don't want your loving

Say I'm wrong  
You turn it off soon as I turn you on  
Stay too long  
Can't let you go soon as you let me on  
If you ever

If you ever were to call me  
Still leave me on the line  
Open up the door, I'll fall in  
I can fall in you every time  
Want me just until the song ends  
Til the song ends, skip it twice  
Baby, I don't want your loving

Baby, I don't want your love

If it's something like this  
'Cause there ain't nothing, ain't nothing like this  
Could you love me like this?

If you ever wanna call me  
And read me every line  
Tell me when you think you're falling  
I'll catch you every time  
I don't wanna hear the song end  
Repeat it once or twice  
Baby, I don't want your loving  
If it's nothing like mine
