

# Warn

Kevin Garrett

It's been too long  
To keep hating anymore, no  
And all the times I've tried to run  
But I can't ignore it  
How I stay and it's a shame, the way I want you  
And people are talking now, you hear me talking?  
It's just words 'til I say them  
But you don't love me at all  
It's just words 'til I say them  
What happens if I won't be around with you?

Tell me if you hadn't known this long  
Tell me, would it be the same?  
'Cause I can't get my head around this thought  
That you would leave me anyway  
Tell me if I never try to change  
Are we gonna be okay?  
'Cause we ain't never stay in the same place  
I couldn't love you everyday  
Don't say I didn't warn you, warn you  
Say I didn't, warn you, warn you

Do you hate how I linger?  
The way you did in the end  
You say it doesn't hurt instead  
'Cause I still don't believe us  
What you said, the closer I get  
It's holding your hand, molding your head  
I'm under your skin, you lose and you live  
It's love on the tip of your tongue  
If we ever want it all  
What happens if you won't be around when I call

Tell me if you hadn't known this long  
Tell me, would it be the same?  
'Cause I can't get my head around this thought  
That you would leave me anyway  
Tell me if I never try to change  
Are we gonna be okay?  
'Cause we ain't never stay in the same place  
I couldn't love you everyday  
Don't say I didn't warn you, warn you  
Say I didn't, warn you, warn you

Hmm...  
Say I didn't  
Hmm...  
Say I didn't  
Hmm...
