This the spirit of Iboga  
This the spirit of Iboga  
I don't think they comprehend  
Listen close. Pay attention  
Cultivated intuition. Third eye correlation meaning foresight  
Amelio born right translated in the vision  
He or she lacking comprehension  
Let me simplify it. I am gifted  
Another Language  
I'm Heavy meaning heaven sent me  
Ain't no authors in my house  
That's cause I'm a walking altar  
Spirits congregate around me  
Go through me to talk to God. I got power  
Heavenly protected stepping in that room. I'm in it  
Energy can Feel my fingers Amelio in em  
Briefly inhaling wherever we in em  
Don't wait for this inmate the pussy precipitate  
Phone but they workin women tend to get dizzy  
Protecting my heart and I'm my keeping my distance  
Invisible roof I was showing the titties  
Bloody interior whip on her period  
Color cut clarity blinging magnificent  
An tho yet I purchased it filled it with racks  
Houston and Nemittz and blew me a bag  
Genuine wit her but we disattached  
HMMMMM but I know you want me back  
Focused not sorry not taking you back  
I ain't Keith Sweat I ain't making it last  
I was built for it all  
Evoke my soul again its on the floor again  
Whip out the bowl and I won't ever put  
All my trust in my bro or my hoe again  
Can't let the left hand know  
How the right hand type on a blackberry phone  
I'm on go for real  
I had to cut off a few kleptomaniacs  
They were shoplifting my energy  
Started protecting it  
They got upset with me  
Calling me selfish  
Ain't trip I expected it  
Got in they feelings  
An got on the internet  
I don't participate I don't get into that  
Walk in the gym and work out  
And go get a check  
Tell em what else  
Toxic relationship  
Feelings unhealthy  
They was not serving or spiritually helping  
Trust in my inner self  
Learn to forgive myself  
Discipline while on a spiritual journey  
Lot of nights all alone  
I done cried when they left me  
Ceiling went dark I admit I was scared

Try to kill myself  
Won't leave a suicide letter  
Tried to blow out my brain leave the room I'm in messy  
Drugs I been taking  
Ain't making it better  
The man in the mirror been looking like Kevin  
Believe in yourself  
You dat nigga you special  
Fasted for 42 days I'm a gangsta  
All of a sudden I'm rich and I'm wealthy  
Don't flex for the gram  
I look better in person  
Skin super clear and I glow from within  
Borrow sensation. A glimpse of perfection  
Women get around me and wanna undress  
Look good as a Bitch and you know that I'm sexy  
100 mil only per my discretion  
Shout out to heavy this week we collected  
Coupon collector. We hustle aggressively  
Blueprint to touch its breadwinner recipe  
We really the streets not to glorify that but the  
Story they telling don't really impress me  
The image they selling be kind of perplexing  
Cause they was not like that whenever I met them  
Everyone out here  
Pretending they stepping  
Get behind bars after they get arrested  
Tell on they partners and fold under pressure  
You lil dudes asking me too many questions  
\$8 million I spun on a mansion  
Flew out the country and took my bae shopping  
And redid a closet  
And boarded a private da boat  
Take a duffle forgot where I left you  
Cross me. Don't tell me you sorry. Be careful  
Been through it all and ain't shit you could tell me  
Fully prepared and I'm built for whatever  
I'll get you together  
I was built for it All  
I know you want me back  
I know you want me back  
So I know you want me back  
This the spirit of Iboga  
This the spirit of Iboga  
This the spirit of Iboga  
I know you want me back  
I know you want me back  
I know you want me back
