

# FEEL

Kevin Gates

Somethin' special  
Say, you better know that you that nigga and you somethin' special  
I don't give a fuck what or how it look around, you better know you somethin'  
' special  
Ha, ayy  
Don't let nothin' trick you, homie  
You better know you somethin' special  
Psh, you better know you somethin' special (Bam)

No longer jumpin' out my sleep (Uh-uh)  
Listenin' to the prayer, sleep alone can't be depleted (I done seen it there  
)  
See the women tryna be, can't be deceived, she lyin' to me  
She worship makeup and a weave, she ain't what I'm tryna see  
She can't be on side of me  
If it ain't foreign, then it's borin', it get uninspiring (Uninspiring)  
When you know that you that nigga, you get mad at the chick you with 'cause  
that ain't the chick you want to be with you (Uh-uh)  
You better know that you that nigga  
You look better in real life and they can't post a pic' without filters (Uh-  
uh)  
Sometimes I feel I slapped God in the face, blockin' my blessings  
Like I ain't have enough faith that He could send me somethin' better (No)  
All she did was spread lies, but I held it back together  
Say she wanna love me, but my heart'll never let her  
Pretendin' that I'm with her, but I'm feelin' like I settled  
I know I'm somethin' special  
I just cut my phones off, can't receive no phone calls  
You know I can feel you from far away, love (Oh yeah)  
I've been in my own thoughts, meditatn', zoned off  
Tell me why you gotta be so far away, love (Far away, love)  
Hopin' our souls cross (Oh yeah), lately, I been so lost  
You know I can feel you from far away, love (Far away, love)

You know I can feel you from far away, love (Far away, love)  
You know I can feel you from far away, love (Far away, love)  
You know I can feel you from far away, love (Far away, love)  
You know I can feel you from far away, love (Far away, love)

Super focused, I've been drug free  
Addicted to my callin'  
You ain't gotta block my number, swear to God won't do no callin'  
You watchin' me from these big pages, been stalkin' way too often  
I'll never change my play of ways, I'm all the way retarded  
I know it's got a name, but I don't what to call it  
I'm workin' with some change and it's say to safe I'm ballin'  
You know that I'm that thing, switchin' lanes inside the foreign  
You text me your new number, but I can't do no respondin'

In your body when it's cryin' out for me  
When you on side of somebody, you not with me  
Somethin' missin' out your life, obviously  
Breadwinner, fly life, I've been out of reach  
In your body when it's cryin' out for me  
When you on side of somebody, you not with me  
Somethin' missin' out your life, obviously  
Breadwinner, fly life, I've been out of reach (When you know you somethin' s

pecial)
