

Hard For Pt. 2 (Many Times)

Kevin Gates

Now this the vibe I'm elevating high
I'm trimming all the fat off my attention on my grind
I can't be distracted I can't let you waste my time
All is off the hustle I do not respect my time

How many times you been leaning on me many times
How many times you been sleeping on me too many times
How many times you been speaking on me too many times
How many times Ima leave you sorry many times

How many times you been leaning on me many times
How many times you been sleeping on me many times
How many times you been speaking on me too many times
How many times Ima leave you sorry many times

Dose anybody hear me crying out loud

Forgive me if I'm seeming a little distance I put energy in myself
When the heart wants what it wants and I don't want nobody else
Can't be used then you useless use me just don't abuse me
The back and forth gets so confusing the only thing that's really soothing
Is working out and making music
My whole life been like a movie
Ego feelings in my head
Eagles flying overhead
Once I get you back in my arms
Ima never let you go again

How many times you been leaning on me many times
How many times you been sleeping on me many times
How many times you been speaking on me too many times
How many times Ima leave you sorry many times

How many times you been leaning on me many times
How many times you been sleeping on me many times
How many times you been speaking on me too many times
How many times Ima leave you sorry many times
