

# Hold It Down

Kevin Gates

That nigga that is stupid as a motherfucker

If I'm a dog on a leash this the right song  
Love is free we can get it with the lights on  
Love the way you get on top of me as you can see I mean know you down  
Love the way you hold me when you hold it down  
I told her not to mess around with gangsters  
Out of her league I think she's falling for a game, woah, oh oh oh  
Love the way you hold me when you hold it down

Every morning I feel her tweet, kush and coffee  
Really into the way that I kiss her pussy softly  
Body language expressive, I got her pussy farting (Pfft)  
My bad, probably shouldn't say that  
Probably should have each one of my fingers where your waist at  
Inches killing her slowly while we do it in slow motion  
Love when I pull her hair while doing donuts on the sofa  
Marijuana's my cologne if you pick up on my aroma  
Habits that gravitated, we sexually stimulated  
How the fuck was we just laughing at McLovin' making out in public  
Now we out in public holding hands  
Saying if you need somebody who can please your body, I don't see nobody but me  
And both our hearts are pounding legs wrapped around me  
Want you naked in my bedroom scene, just want you naked in my bedroom

I love the way your body smell like the scent of a nectarine  
Cancelled everything, on the agenda  
Who'd ever think, I'd be checking for someone or even being so intrigued  
By something that don't even meet the criteria of the women that I used to love  
So confused though encounter difficulty  
Hoping you can help me through with those, things  
Life switching it's night or morning with curtains open  
Get through the boxes notice  
The front of my shirt was soaking  
Love to go in slow motion  
I'm busting that pussy open  
We sweating fucking the sheets  
You scratching me when I'm deep  
That ass clapping for me while  
I stick my tongue in-between  
Your nipples look like erasers  
Look how you lookin' at me, grab your neck  
Ready, set, grip your toes and kiss on your feet  
Make your inner thighs, 69  
You could be underneath  
I'm a dog make you like those I love it when we naked my faces we should leave lights on
