

Move

Kevin Gates

Callin' the spirit of the jaguar, chase all bad energy right now
Only positivity in this space, we keepin' it sacred right now
Mm, uh, good love, uh, uh, good love, ooh
Good love, mm, uh, good love, mm, oh
Callin' the spirit of the jaguar, chase all bad energy right now
Only positivity in this space, we keepin' it sacred right now
Ooh, ah, yeah, ooh, woah
Ooh, ah, yeah, ooh, woah

Have you ever loved somebody make your body move? (Move)
Have you ever loved somebody make your body move? (Move, move, move)
Have you ever loved somebody make your body move? (Move)
Have you ever loved somebody make your body move? (Move)

Bad times never lasting
Angelic form when I put it on, mm
I've been doin' a lil' fasting
Take her home, makin' sweet love, just imagine
Faces that she's makin' when she moan in the mattress
Wanna send her home, she gon' have to get her hair fixed
Ought to see the way she dancin'
Ought to see the way she dancin'
Camera man Nick, 'bout to film us a lil' movie
Get a close up while I'm grippin' on her booty
I'm the life of the party
You know I'm retarded

Callin' the spirit of the jaguar, chase all bad energy right now
Only positivity in this space, we keepin' it sacred right now, mm
Have you ever loved somebody make your body move? (Move)
Have you ever loved somebody make your body move? (Move, move, move)
Callin' the spirit of the jaguar, chase all bad energy right now
Only positivity in this space, we keepin' it sacred right now
Ooh, ah, yeah, ooh, woah
Ooh, ah, yeah, ooh, woah

Big feathers in my hair, uh
I know you feelin' my lil' swag
BreadWinner heavy and I'm payin' with a bag
Hold that ass steady while I hit from the back
She into yoga, doin' backbends
Hold that ass steady while I hit from the back
Slow motion, pull her hair, stroke her from the back end
Hands in the air if you ever had your heart broke
I could relate but that was back then
What's wrong? Don't front
I know you miss my love (Hoo)
Thank God, I done found her
Good jugg, I be workin' her for hour
Neighbors know my name, say it loud when I pound her
Grippin' on her waist, that lil' thang gettin' rounder
Free to be yourself, you can do what you want to
I know you see I want you

Have you ever loved somebody make your body move? (Move)
Have you ever loved somebody make your body move? (Move, move, move)
Have you ever loved somebody make your body move? (Move)

Have you ever loved somebody make your body move? (Move)
