

No Harm

Kevin Gates

Like I just took a Xanax
I got lots of bars
Car from out the planet
Wraith, it got them stars
Here to cause some damage
I don't mean no harm
Man, I keep the carbon
Aim it at your heart

Jump off top the ropes like John Cena
And I brought the gun just like Arenas
Basketball balling just like Gilbert
Bad yellow bitch, her name is Tina
And I got another bitch, she tiny
When she see the racks she starts to whining
I'm just tryna score just like a basketball
Encrusted my watches with the diamonds
Encrusted my belt it got the rubys now
Oooh, oooh
Chop the top for summer time, oooh
Hold up, they forgot, let me rewind it
Probably on vacation in the tropics now
Louis, my flip flops, I walk like titans
And the .40 on me strike like lightning
My mink a gorilla and it's biting

Like I took a Xanax
I got lots of bars (Lots of bars)
Car from out the planet
Wraith, it got the stars
Here to cause some damage
I don't mean no harm
Man, I keep the carbon
Aim it at your heart

Bread winner
Custom color
My cup, it now runeth over
I know how to take a brick and break it down
Once I bust it open
Mannequin fresh
Thumbin through a chick in a pair of sweats
Go 'head and flex, I'll hit your solar-plex
And place you in the stars
Already can't get in my foreign car
You not one of ours
One of the reasons I'm still goin' hard
Ain't promised no tomorrow
Big dog pressure, applies
Break pies, I don't get tired
Cocaine blessing my grind
Pyrex hiding it right
Solar gon' fall to the bottom
Yola gon' stay on the top
Grab me some napkins, it dries
Smokers be yellin' its fire
Hatin on prices, goodbye

Praise be to God, I survived
Young nigga steppin' with iron
Now they respectin' my mind

Like I took a Xanax
I got lots of bars
Car from out the planet
Wraith, it got the stars
Here to cause some damage
I don't mean no harm
And I keep the carbon
Aim it at your heart
