

No Names

Kevin Gates

Ain't got to say no names, say no names
'Cause I ain't ready
I'm gon' to leave you where you left me and
When I'm gone, you gon' sweat me
Don't condone drunk texting
Know you shouldn't be texting

It ain't my fault I got a place in your heart
I thought you were the one, but fuck it
Guess I was wrong, you said that you were different
Still I live by your code
You actin' strange, you playin' games, givin' my all on low

Ain't got to say no names, say no names
'Cause I ain't ready
I'm gon' to leave you where you left me and
When I'm gone, you gon' sweat me
Don't condone drunk texting
Know you shouldn't be texting

Pull your hair, you scream my name, scream my name
Got you yellin', "Daddy"
Legs spread, goin' crazy
Don't care who you conversate with lately
Friends tellin' you they hate me
I know them other niggas ain't me
I'm a gorilla
Strokin' you slow in the mirror
Archin' your back, got you makin' these faces
Careful somebody might hear us
(You heard what I said?)
Feet go to facin' the ceilin'
All that pressure is healin'
Tellin' me that she still in love, ooh
(Ooh, oh)
(Ooh)
(Ooh)

I don't care what nobody think
They in your ear, got you goin' against me, but you know who yo
u for
Stop playin'
