

Power

Kevin Gates

So you hide away and never tell
You decide if darkness knows you well
That lesson of love, all that it was
I need you to see
You've got that power over me, my my
Everything I hold dear is right in those eyes
Got that power over me, my my
The only one I know, the only one on my mind
You've got that power over me

That lil' pussy got some power in it
That lil' pussy got some power in it
Super soaker, need a towel for it
Drippin' on me like a showerhead
Throw it back and arch your back when you doin' me
Bust in back to back to back when you doin' me
I be runnin' back to get it back when I'm through
Lotta Birkin bags, back to back, got the black and the white and the blue
That lil' pussy doin' somethin' to me
Ooh, that lil' pussy feel good to me
You know what you got and girl, you got a lot
Skeet from the back and I just wanna watch
Climb up on top and ride me like a bike
You got that power, power
Tryna beat it for hour, hours
If it's yours, it's mines, it's ours

You know what I like, you know how to make me wanna want you
I ain't screamin', come over, jump on it
You know what I like, you know how to make me wanna want you
You ridin' this dick like you own it
You know what I like, you know how to make me wanna want you
You know how to make me go crazy
And you know that pussy got power, baby
You're makin' me wanna come tear it up

So you hide away and never tell
You decide if darkness knows you well
That lesson of love, all that it was
I need you to see
You've got that power over me, my my
Everything I hold dear is right in those eyes
Got that power over me, my my
The only one I know, the only one on my mind
You've got that power over me

Bitch a gangster, I be puttin' her hands, all the way behind her back
I be divin', when I be divin' she be, "Dick, dick, dick"
"When you finish cummin' all over my stomach, bae could you please stand up?"
"
"I need your left hand for the grip of my hair, could you please put your free hand up?"
"When you finish cummin' all over my stomach, bae could you please stand up?"
"
"I need your left hand for the grip of my hair, could you please put your free hand up?"
You're all to myself when I grip on your pelvis, you knowin' how we make love

e

Don't need no audience, we had an argument, this is how we made up
Say you got that power inside of your body, the faces you make and I love how you shakin'

You pointin' your toes when I tell you to take it
That dick in your stomach, I don't do no fakin', you know I'm a gangster
Watch out, I'ma kiss on your waist, it ain't no interruptin' our session
I go in the matrix, hold up, I slow up the pace, then I apply a lil' pressure

You know what I like, you know how to make me wanna want you
I ain't screamin', come over, jump on it
You know what I like, you know how to make me wanna want you
You ridin' this dick like you own it
You know what I like, you know how to make me wanna want you
You know how to make me go crazy
And you know that pussy got power, baby
You makin' me wanna come tear it up

You've got that power over me, my my
Everything I hold dear is right in those eyes
Got that power over me, my my
The only one I know, the only one on my mind
