

See Me

Kevin Gates

Baby, you know
We ain't never had a fair shake 'cause I was goin' through the worst
of the worst, you came in my life and you just
Everybody was so judgmental, you know what I'm sayin'?
For real, yeah

I was confused, hard to trust again with all my heart's been through
They misuse it, not the one you choose, I fall back from you
Heal my wounds, name and face tattoo, can't get that removed
Lesson learned, they been usin' you when they show gratitude
Progression earned through experience, awkward avenues
Free you born, let you don't conform, they have attitudes
Affected form, weathered every storm and they still mad at you
Made 'em feel like they opinion matter, they threw jabs at you

Now you ready to go jump out the plane without no parachute (Without
no parachute)
Now you ready to go jump out the plane without no parachute (Bae, I b
een watchin' you)
I better be the only one you dance for
I know you see me on the dance floor (Bae, I been watchin' you)
I better be the only one you dance for
I know you see me on the dance floor (Bae, I been watchin' you)
I better be the only one you dance for
I know you see me on the dance floor

Bae, I been watchin' you, wan' be on top of you
Just put your faith in me, show you what God could do
Remove every obstacle, lay on the clouds to snooze
Walkin' on water now, I'm makin' mountains smooth
I know they hate to see the way that I rock with you
Ballin' on shoppin' spree, look what I got for you
I am him, his imperial majesty, this is true indeed
Suicide attempts, been turned against, but this not new to me
Know I'm lovin' how exotically you make your leg move
Comin' out of your designer when we in the bedroom
Brand-new coupe in a brand-new Porsche, I can't crash the coupe
In Chicago, big old cups of lean that I pass to you
Fell in love with the way I thug, way I handle you
I go hammer, flew in from Miami, I dismantle you
We in the shower, hit you with that plaga, this dick got some power,
love
Wanna be your favorite again, this dick got some power, lover

I just wanna be your favorite again, wanna be your favorite again, li
ke back when we was lovers
I just wanna be your favorite again, wanna be your favorite again, li
ke back when we was lovers
Like back when we was lovers
Like back when we was lovers
Like back when we was lovers
Like back when we was lovers
