

## Confessional Booth

Kevin Max

If angels were men well then they couldn't fly  
If birds had souls they would forever glide  
If people would love then more of us would be alive  
Oh my my oh my  
If you were me you wouldn't sleep at night

I take back everything I said  
That ever caused you pain or stress  
I take it back, just like that  
I take it back, just like that

If trees weren't chairs they'd all give us life  
If the truth didn't hurt so much then I wouldn't lie  
If you could trust me maybe we could have a try  
Have a, have a try  
If you were me you'd see the light

I take back everything I said  
That ever caused you pain or stress  
I take it back, just like that  
I'd take you back just like that

You know justice is so blind  
So help me tip the scales tonight

I take back everything I said  
That ever cause you pain or stress  
I take it back just like that  
I take it back just like that

I take back everything I said  
I take back everything I said  
Take back everything  
Everything  
I said
