

# Moondancer

Kevin Max

Silver hair  
Lavender dress  
Moves to impress  
All the cats know  
They sing in the dark  
They sing the same song  
Moon dancer  
Come out after 10  
When all the beachcombers have gone to bed You've got sings in  
your head  
That could last as long  
As you can dance  
The moon dancer dance

See the light stalk the night  
Like tendrils of arms  
From the netherworld  
The foggy beach  
Petra head like an outcropping  
Of the ragged dead  
The ancient verse  
Follows the hearse  
All the way round  
To the Cemetery's church  
Moon dancer  
Moon-dancer's  
Curse
