Tell me that it sounds so bad
Your naked body feels so good
I make you do some crazy things you wouldn't normally do, no
You try to convince yourself you're fine
When you know you're goin' outta your mind
You said it will never happen to you but look
You're going crazy, yeah

No matter what you do, it's calling you
I'm begging you (No one is irresistible)
Trying to fight it
You can't because this love is like a drug

Can't get away from ya, addicted to your love
It's like my I'm on a drug, it's like I'm on a drug
You got me so caught up, I know for sure I'm sprung
Off what he's giving up

I'm addicted, can't let him go because I need that
He's addictive, somebody need to send ya girl straight to rehab
I need that, I need that
I can't get over this on my own

Feel it when he fall on me
I can hear him callin' me
Swear I feel his lips on my ear
Tried my best to get control of it
But I can't get a hold of it
I want it to disappear, oh
Tossing and turning, heavy withdrawals
Waking up in cold sweats
Feenin' for your love
Tryna play it off but the whole world knows
They know that something's goin' on

No matter what you do, it's calling you
I'm begging you (No one is irresistible)
Trying to fight it
You can't because this love is like a drug

Can't get away from ya, addicted to your love
It's like my I'm on a drug, it's like I'm on a drug
You got me so caught up, I know for sure I'm sprung
Off what he's giving up

I'm addicted, can't let him go because I need that
He's addictive, somebody need to send ya girl straight to rehab
I need that, I need that
I can't get over this on my own

Can't get away from ya, addicted to your love
It's like my I'm on a drug, it's like I'm on a drug
You got me so caught up, I know for sure I'm sprung
