

All I Want Is You

Kevin McHale

You used to wanna be a player right?
But nowadays you don't play it right
You never play it safe
But I noticed how you like it that way

You used to wanna be a player boy
But now you just playin' me boy
Play all your little games
But tonight you're gonna stay at my place

Does your roommate know that you're not coming home tonight? (tonight)
Cause they play your song [?] tonight

Turn off the TV, put down your phone
Let's get to dancing like we're all alone
I'll make it easy, if you sing along
Put it on repeat then I'm taking you home

All I want is you right now
All I want is you, you
All I want is you right now
All I want is you, you

Hey, you don't have to stay
But might regret that you had gone
Next time the moment come

So let your roommate know that you're not coming home tonight (tonight)
Cause they play your song [?] tonight

Turn off the TV (turn off the TV)

I'll make it easy (I'll make it easy)
