

It's Over

Kevin Morby

Bought my body off the used lot, I'll take the last one if it's
all you got
Just need something to carry me, rest of the way towards Tennes
see
Where'd Cory go and where is my band? I miss my life up on the
bandstand
Used to sing songs from a motorcade, as we rolled into the rose
parade

It's over, it's over now
It's over, it's over now

City froze, fill the bath with snow, swallows flock down toward
s Mexico
Gotta get out now, gotta go, fuck the dog, leave him back at ho
me
Texas thawed then California burned, January turned to firewood
Took the homes with the leather floors, smelled like bulls cook
ing on the shore
Live here again but I'm leaving soon, back to my abandoned Holl
ywood
Downtown can't die if it's not alive, I'm up in the Peabody, ro
om 409

It's over, it's over now
It's over, it's over now

Used to take our dinner, babe, by the sea
Everyone was a winner then, when everyone was free
We used to sing, Cassie, even dream
For the poor souls passing through our gallery

Now it's over, oh, it's over now
Oh, it's over, oh, it's over now
And the good times (Now it's over, oh, it's over now)
Are over my shoulder now (Oh, it's over, oh, it's over now)
And the good times (Now it's over, oh, it's over now)
Are over my shoulder now (Oh, it's over, oh, it's over now)

And the good times
Are over my shoulder now
And how?
And how?
And how?
And how?
End how?
End now
End now

End now
End now
End now
