

Valley

Kevin Morby

In the valley below me
In the valley below
They all pretend not to know me
They all act like they don't know
In the sky above me
In the sky above
Mama, all the stars are broken
For either me or you or us

In the valley below me
In the valley below
They all pretend not to know us
They all act like they don't know
In the sky above me
In the sky above
Mama all the stars are broken
For either me or you or us
