

Wander

Kevin Morby

I wonder as I wander
Why was I born in the wild wonder
It was a dream, only a dream
And it came back to you and me

And I wonder as I wander
Why was I born in the wild wonder
It was a dream, only a dream
And it came back to you and me

And I wonder as I go now
Did I ever even know now
And I wonder as I wander
Why was I born in the wild wonder

In a car on the highway
Keep my eyes on the highway
In my chest, bump bump
Bump bump bump, bump bump

In my blood, in my blood
You and me together
Behind my eyes, behind my eyes
Here comes stormy weather

On a drive, on the highway
Keep my eyes on the highway
In my chest, bump bump
Bump bump bump, bump bump

And I wonder as I go now
Did I ever even know now
And I wonder as I wander
Why was I born in the wild wonder

And I wonder as I wander
Why was I born in the wild wonder
And I wonder as I wander
Why was I born in the wild wonder
