

# Dream

Kevin Ross

They say a dream is just a dream  
Until you wake up out your sleep  
Let's go

All I seem to do... is think about us  
I'm missing you much babe  
Sleeping without you... is torturous  
I'm just hoping that you feel the same  
And it be crazy if you weren't  
Like a hand on a flame, with no sign of pain, that be heartless  
And is it wrong to hope you're hurt  
Girl I won't be ashamed, to lay here awake as long as it's not in vain  
So don't make me dreeeeeam  
If I got what I want here in reality...  
So don't make me dreeeeeam  
Unless it will take me to where I wanna be  
So don't make me dream, dream, drrrrrrr  
If I had to choose (to choose)  
Money or love (money or love)  
Darling you know that  
Be on the first flight straight to you  
I'd give it all up, no hesitation  
It's not a price on what you're worth  
No matter how far away  
How long it may take, for me to get there  
So I'm off with no return  
Girl I won't be ashamed to lay here awake as long as it's not in vain  
So don't make me dreeeeeam  
If I got what I want here in reality...

So don't make me dreeeeeam  
Unless it will take me to where I wanna be

So don't make me dream

It's hard to sleep when the girl of you're dreams is a nightmare  
Even harder waking up when I realize you're not there  
Furthermore, understanding that there ain't no love without fear  
Now I see what they say about life and how that's just not fear  
But I won't hold that against you, no we won't dwell on that  
Cause all it takes is some effort to make a good thing last  
Accepting the pain and pleasures  
I'm Usher with the confessions

I'm not letting it burn  
No I'm just living and learning

See I just want you to see it's deeper than love

May sound cliché but I feel like I breathe for this love  
The crazy thing is it's not about how many breaths you take, but how many moments took your breathe away  
Don't let me dream too long...

Don't make me dreeeeeam  
If I got what I want here in reality...  
So don't make me dreeeeeam

Unless it will take me to where I wanna be  
So don't make me dream
