

Easier

Kevin Ross

Just the way you are, every time you lay right beside me
Oh, oh, just the way you call when you call my name, you excite
me

And I don't ever want to make you cry
'Cause that's gonna make it hard for you to sleep at night

I want to make it easier, easy for you to love me
Easy for you to show me how I want to be treated
I'ma make it easier, easy for you, girl

I know that actions, I know that they speak louder than words
And if you give me a chance, I'll show you, baby, 'cause girl,
you are my world

And I don't ever want to make you cry
'Cause that's gonna make it hard for you to sleep at night

I want to make it easier, easy for you to love me
Easy for you to show me how I want to be treated
I'ma make it easier, easy for you, girl
