

# Found Me

Kevin Ross

Before you it was bright lights living lawless  
Blacked out in the parties  
I almost lost it til you found me  
I almost lost it til you found me

No love I was heartless  
Always told to move with caution  
I almost lost it til you found me  
I almost lost it til you found me  
(Yeah)

Didn't see you coming I was sidetrack  
Hundred miles and running  
It be like that  
Whoa, somebody grab the wheel this sh.t's out of control  
It feel my heart is something like 40 below

Ooh baby  
I know that my lifestyle crazy  
I just took the cards life gave me  
Then you flipped the whole damn game

Before you it was bright lights living lawless  
Blacked out in the parties  
I almost lost it til you found me  
I almost lost it til you found me  
No love I was heartless  
Always told to move with caution  
I almost lost it til you found me  
I almost lost it til you found me
