

I Do / Options

Kevin Ross

Say you're through with love girl I'm tryna see who broke your faith
And to try again will take too much energy
Spent all your time and it ain't meant to be
No need to rush we can take it slow go at our own pace
Guarding your heart too defensively
Can turn a future lover into enemies

I see that you're holding back
But that's not you
You've been in and out like a drive thru
You've been going bad
It's a cycle
I'm tryna help you end it and show you all my intentions

Cause ooh, you know I do (yeah)
And baby, you ain't gotta ask me about it
Cause I would rather show you 100 ways to prove
I'll always do
You know that not a single thing would change my love for you
You know that I
Do (do do do do I do)
(Do do do do I do)
(Do do do do I do, I do)
Yeah yeah yeah

Don't worry bout anyone that see us out
Hella proud anytime that you're around
Hold me down, you're a queen now where's your queen
Dripping gold between your legs let me settle down

Fighting back but that's not you
You've been in and out like a drive thru
You've been going bad
It's a cycle
I'm tryna help you end it and show you all my intentions

Cause ooh, you know I do (yeah)
And baby, you ain't gotta ask me about it
Cause I would rather show you 100 ways to prove
I'll always do
You know that not a single thing would change my love for you
You know that I

Money on her mind
Money on my mind
Read between the lines

Throwing fits in Barney's like a toddler
Diamonds dripping off you like a faucet
Whippin' every week new hair do
Bottoms on her feet like Ragú
Either Louis or its Dolce and Gobana
Just keep that coo... bussin' til mañana
Bad as hell and yeah, you got that juice
That's why you never give them... looks cause you know that

Ooh ooh, you got options (with me)

Ooh ooh, you got options (with me)
Who who don't worry about it (bout me)
Cause you (ooh) you got options, yeah
