

## Inside Freestyle

Kevin Ross

Patience, know you tired of stayin' in  
Tryna spread love on you, I ain't talkin' Texas, we go a cappella

Make a plan, it's just whatever, hit your Spotify  
We get tired of any station it's like, oh, you the GOAT  
Every time you come through, it's a standing O  
Tryna mash up on that ass just like my show  
Come get what you've been waitin' for  
Won't you let me, let me, let me?

(Won't you let me) Come in  
(Come inside)  
Let me feel what I can find, I won't even explore more  
Than your body, but your mind (Don't stop)  
Won't you let me  
So let me (won't you let me) let me, please  
(Come inside) inside (Ooh)

See, just like I murdered a beat, ain't nobody to compete  
Top of the key, I'll have you raining on me  
Just like I stepped on your feet, give me your ring  
I'm in a coup, I got the aim, ready to shoot  
Bring in the fire like in the booth, you need a fix, I got the tools  
Yeah (True), you know if those walls could talk  
Never backing coming hard, drowning every time your waterfalls  
Just tell me where to start, baby, if you let me  
Inside  
I promise I'ma take you there, only if you let me

(Won't you let me) me (come inside) inside  
I promise I'ma take you there, only if you let me  
(Won't you let me) me (come inside) inside, oh

Girl, just don't tell me I came all this way (I came all this way)  
Just for you to change your mind  
Won't you tell me?  
I'll wait night and day just for you to say to me  
Won't you come inside?

(Won't you let me come inside?)  
Right, yeah (don't stop)  
(Won't you let me) I'm just sayin' (come inside)  
If ain't me, then who else would it be? Ayy, ayy
