

MM V2 (The Flow Through)

Kevin Ross

Whoa
Leave it to the pretty poison
I'm talking bout you
Know just how to kick the door in
I can't refuse
I've been tryna cut these ties but can't break loose
Loving you is dangerous

But I'm still f.ckin round
Sneaking while we linking all late night
Creeping at Four Seasons for a date night
I know this sh.t wrong, how it feel right
But why it hit better when it ain't mine

Sneaking while we linking all late night
Creeping at Four Seasons til daylight
I know this sh.t wrong, how it feel right
But why it hit better when it ain't mine
Why it hit better when it ain't mine
Why it hit better when it ain't mine
Why it hit better when it ain't mine

Ooh
Why it hit better when it ain't mine
Why it hit better when it ain't mine

I don't know why I do what I do
Guess I can't help it
Is it worth losing you, losing you being this selfish?
Maybe it's the thrill of the kill
When the sun is down
Leave the body right where it is
On to another now, now

'Cause it's a relentless hunger
That preys on me in the night
I have a need to conquer
If beautiful's in my sight
Hey baby, take my number
But don't call me after nine
And it's hard to resist knowing I'm

Animalistic in my
Animalistic in my
Animalistic

Oh, I don't wanna do you wrong
But I'm never gonna be alright
I don't wanna do you wrong
But I'm never gonna be alright
Animalistic in my

Hello and welcome back to Midnight Microdose

(Whoa)
Imma stay single like the bills on the floor
(Throw it, throw it)
Imma stay single til I reach a new low
All they hear is numbers like we speaking in code
Imma stay single til I reach a new low

Then I fall
Fall to new lows with you
And I crawl
I keep on crawling to get close to you
I'm really bout to fall
Fall to new lows with you
And I crawl
I keep on crawling to get close to you

I'm really bout to fall (fall)
Put on the prettiest face and do the shittiest things that ain't you
I'm really bout to fall in new lows with you

Before you it was bright lights living lawless
Blacked out in the parties
I almost lost it til you found me
I almost lost it til you found me

No love I was heartless
Always told to move with caution
I almost lost it til you found me
I almost lost it til you found me
(Yeah)

Didn't see you coming I was sidetrack
Hundred miles and running
It be like that
Whoa, somebody grab the wheel this sh.t's out of control
It feel my heart is something like 40 below

Ooh baby
I know that my lifestyle crazy
I just took the cards life gave me
Then you flipped the whole damn game

Before you it was bright lights living lawless
Blacked out in the parties
I almost lost it til you found me
I almost lost it til you found me
No love I was heartless
Always told to move with caution
I almost lost it til you found me
I almost lost it til you found me

Don't give it all to him, babe
Feelings involved, don't wanna stall you, babe
But in my head I hope it fall through, yeah
I took a loss, didn't know what it cost but now

I'm ready for you, I'm ready for you
I'm ready for you, I'm ready for you
Do you think about me kissing, me kissing, me kissing you
And how you got me tripping? I'm tripping, I never do

I'm ready for you, I'm ready for you
I'm ready for it

Took me a while just to get it
Swore that my love was off limits
Before you I had that come and see business
'Cause nothing was ever worth a revisit till I saw you
All you did was make me better
Couldn't get my shit together
Watched it fall through
Till I lost you
Hope it ain't too late to hear me now

I'm ready for you, I'm ready for you
I'm ready for you, I'm ready for you
Do you think about me kissing, me kissing, me kissing you
And how you got me tripping? I'm tripping, I never do
I'm ready for you, I'm ready for you
I'm ready for it

It's Easy
Had to get it all out my system
Hope you understand my position
I was on bullshit
But now I see your apart of the vision, it's concrete
Our foundation
Girl, you make me better, had a dream your my Coretta
Gotta thank you for your patience
It's official now

I'm ready for you, I'm ready for you
I'm ready for you, I'm ready for you
Do you think about me kissing, me kissing, me kissing you
And how you got me tripping? I'm tripping, I never do
I'm ready for you, I'm ready for you
Ready for you
I'm ready for it

You, I'm ready for you
I'm ready for you, I'm ready for you
