Overthinking

Kevin Ross

This ain't something we should overthink, oh no
When it happens, we'll fall naturally, oh yeah, oh yeah
This ain't something we can overthink
Girl let's just take each moment piece by piece, ooh-ooh

I'm always in my head about something
Am I doing too much?
Am I doing enough?
Am I there for the people I care about?
Are they there for me when I need them?
It's like, building a roller coaster
When its too high, go low
Too fast, move slow
Just don't stand still
But in stillness
You get to take a closer look at where you been
Where you're at and where you wanna go
You know you conquer the mind, you conquer the world

This ain't something we should overthink, no, no, no
When it happens, we'll fall naturally, we'll fall
This ain't something we can overthink (can't overthink, me and
you)
No I can't, no I won't, ooh-ooh
