

Sweet Release

Kevin Ross

Just sit back and let it play, yeah (Yeah)
You know drive is on the way, yeah (Deuce)

Curbside fine
Read between the lines
Got pennies for your thoughts
Pay millions for your mind
That's what you like
Baby, pass and recline
Girl, you got the light
Diamonds dance in the night
And it's feeling like were on a vibe
Tryna turn the day into a lucky night
You know I love it when we kiss and ride
It's automatic like a .45

Put the dash on coast
You know anything goes
Stress won't hold, no
Once we hit the road
Don't you worry about a hair
On your pretty little head
Let it go, go
Just come and get you a little

Sweet release
Give me a shot (Shoot)
Whipping the pot, never miss
Girl, I got (You)
Give me a time put you in
For a sweet release
Soon as you come (Through)
I'll change the way that you feel make it sweet, sweet, sweet, aye

Bring it in
Same team who we up against for the win
Co star to your main event evident
No one better than you're sugar binge insulin
I go crazy for you
I get militant
Rounds off
I know they're waiting to see your downfall
But we still kicking it like a ground-ball
Whenever you need it you know I'm on call
You better believe it

Put the dash on coast
You know anything goes
Stress won't hold, non
Once we hit the road
Don't you worry about a hair
On your pretty little head
Let it go, go
Just come and get you a little

Sweet release
Give me a shot (Shoot)

Whipping the pot, never miss
Girl, I got (Girl, I got ya)
Give me a time put you in
For a sweet release
Soon as you come (Through)
I'll change the way that you feel make it sweet, sweet, sweet, aye
