

# Switching Sides

Kevin Ross

Said I only see you when it's late at night  
We agreed it's best with no attachments  
Stressing from the sexing and you don't know why  
Girl don't you lie  
You believe all of the talk  
Heard that I got me a new thing  
You went out and got you a fraud  
But that don't compare to a real king  
And now you got lost in the sauce  
Came running back girl told you  
Call it all old news  
Tell me who gon do what I do, do what I do, yeah

Even if you stay or go no switching sides  
It's only one rule one code no switching sides  
If they gotta learn just know it's always mine  
So no switching sides...  
Girl, if you decide to choose  
Know there's no switching sides  
No switching sides

None of them are worthy of it  
I'm the one  
I'm the one deserving of it  
Call a task  
Call a task and I'll rise above it  
Shoot the shot  
Shoot the shot and I'll beat the buzzer  
Ain't nobody on you like I'm on you  
You believe all of the talk  
Heard that I got me a new thing  
You went out and got you a fraud  
But that don't compare to a real king  
And now you got lost in the sauce  
You cry to me like this shits a divorce  
If he gotta problem we'll kick in the door  
Baby, you know know know know I'm down for you  
Cause

Even if you stay or go no switching sides  
It's only one rule one code no switching sides  
If they gotta learn just know it's always mine  
So no switching sides...  
Girl, if you decide to choose  
Know there's no switching sides  
No switching sides
