

# Let Me Rock You To Sleep

Kevin Sharp

Let me rock you to sleep tonight  
Wrap you in my arms  
Run my fingers through your hair  
Keep you safe and warm

Let me rock you to sleep tonight  
Leave the world behind  
Relax your body and your mind  
Let me rock you to sleep tonight

Lay your head on my shoulder  
Let your heart take control  
Take a deep breath  
Close your eyes and let go...

I pray your dreams always come true  
And everyday I wake up next to you

Let me rock you to sleep tonight  
Leave the world behind  
Relax your body and your mind  
Let me rock you to sleep tonight

Relax your body and your mind  
Let me rock you to sleep tonight  
In my arms
