

Make a Wish

Kevin Sharp

She wants a puppy she can call her own
He wants to be a fireman for just one day
Year after year more lives are saved
Oh what a difference a wish can make

Make a wish
Say a prayer
Don't be scared to dream
It can be anything
It's your gift
Make a wish

I know just how hard it can be to believe
When sleepless nights, fear in pain are all you have
Looking back I'm so glad i asked

When I think of all I could have missed

Make a wish
Say a prayer
Don't be scared to dream
It can be anything
It's your gift
Make a wish
A witnessing might be a small request
But my faith may be their last

Make a wish
Say a prayer
Don't be scared to dream
It can be anything
It's your gift
Make a wish
