

# Helium

## Key

Out here drowning for you, no I can't get enough  
So much kiss in the air, I'm dying for your touch  
I would suffocate if I let you go  
You're the reason I can breathe  
You're the reason I can breathe woo

You see me looking  
Watching you  
You're my flame  
I can't, anymore babe

The ground is too hot  
Fire on my feet  
Got to get off  
Before I evaporate

Lift me up  
I need a fix to pick me up  
Girl, I admit you fill me up  
Like helium got my lungs like

Judy Jetson  
Take me up to space  
And let's get down and dizzy faced go dumb  
Like helium got my lungs like

Out here drowning for you, no I can't get enough  
So much kiss in the air, I'm dying for your touch  
I would suffocate if I let you go  
You're the reason I can breathe  
You're the reason I can breathe woo

Hey love  
Wattup  
With your friends?  
So what  
Anyway  
What's up  
Still think  
We can  
Or we can dance  
Or we can jump  
Or we can fly  
Or we can love  
We can love  
Just wanna love  
Just wanna love  
Just wanna love

Out here drowning for you, no I can't get enough  
So much kiss in the air, I'm dying for your touch  
I would suffocate if I let you go  
You're the reason I can breathe

Lift me up  
I need a fix to pick me up  
Girl, I admit you fill me up

Like helium got my lungs like

Judy Jetson  
Take me up to space  
And let's get down and dizzy faced go dumb  
Like helium got my lungs like

Lift me up you know just how to  
Pick me up, know that I want you  
Fill me up like helium got my lungs like

Judy Jetson  
Take me up to space  
And let's get lost and we don't care go dumb  
Like helium got my lungs like

Out here drowning for you, no I can't get enough  
So much kiss in the air, I'm dying for your touch  
I would suffocate if I let you go  
You're the reason I can breathe  
You're the reason I can breathe woo

Out here drowning for you, no I can't get enough  
So much kiss in the air, I'm dying for your touch  
I would suffocate if I let you go  
You're the reason I can breathe  
You're the reason I can breathe woo
