

Superstar

Keyshia Cole

Yeah superstar, whoa superstar

Rollin with my window dropped
Wind blowing, about 6 o'clock
Then this feeling came over me, got to find myself a pretty young thing
So I took a left on the next block, saw this shorty so I had to stop
Girl was looking as fine as could be yeah
I said do you want to ride with me

Your car is looking real smooth, and you looking kind of cute too
But boy I don't even know you, where the hell you think we going to?
Girlfriend had a little spark, so I parked the car and just walked
I don't mean no disrespect love, I'm just trying to see what you're made of

Superstar, face from a movie screen
Superstar, like the cover of a magazine
No matter what you do, you'll always be my superstar
Superstar, I'm your number one fan by far. Superstar

Baby boy is into me now, it's time you let me break it down
I just reminisced on how we met, and this is something I would never forget
From the moment your lips said hi, it's like I pictured your name in lights
I bought tickets to all your shows, and I'm going to be there sitting in the front row

Superstar, face from a movie screen
Superstar, like the cover of a magazine
No matter what you do, you'll always be my superstar
Superstar, I'm your number one fan by far. Superstar

Mon Cheri don't you worry about a thing, I know you're feeling sexy
I want you to know, you'll always be my superstar

Superstar, face from a movie screen
Superstar, like the cover of a magazine
No matter what you do, you'll always be my superstar
Superstar, I'm your number one fan by far. Superstar
