

Abandon Ship

KeyWest

No more sweet, soft skin
No more breathing you in
At least it won't hurt any more
Watching us sink
Bobbing down and up on this trap
We're so good, we're so high, then we're shit
There's a mutiny onboard our relationship

Ooh, swim for your life
You're still so far from shore
Ooh, send up your flares
I'm a man overboard
I'm going under
I'm going down
Swallowing water
I'm gonna drown

So sail me along, girl
It's time to abandon ship
Ooh, though it's breaking my heart
I love you but we have to do this
We're coming up hard
We're taking on water
We've been hit
So save both our lives
We have to let go this wreckage
Abandon ship
Love, be quick
Abandon ship
My dear, please be quick

Oh, swim for your life
You're still so far from shore
Oh, send up your flares
I'm a man overboard
I'm going under
I'm going down
Swallowing water
I'm gonna drown

So sail me along, girl
It's time to abandon ship
Ooh, though it's breaking my heart
I love you but we have to do this
We're coming up hard
We're taking on water
We've been hit
So save both our lives
We have to let go this wreckage
And abandon this ship
Abandon ship, oh, oh, oh
Abandon ship
Baby, please be quick

Abandon this ship
Though it's breaking my heart
We have to do this

Abandon ship
Though it's breaking my heart
Please, love, be quick
