

Beautiful Fool

KeyWest

I was lost in the garden of sin
Lonely drunk but I'm empty within
I was nothing, no, nothing without you
Promises, I meant something I keep
Losing jobs is part of my mystique
I'd be nothing, no, nothing without you

But you still always love me the same way
You beautiful fool

Some might say that sun must follow rain
And some might say the brightest colours fade
Yeah, we fade, yeah, we fade away

Lay your head on this shoulder of mine
I thank God, love must surely be blind
I'd be nothing, no, nothing without you

But you still always love me the same way
You beautiful fool

Some might say that sun must follow rain
And some might say the brightest colours fade
Ooh, love is somebody like me just needs you now
Ooh, hoping one day I'll just change your stance, I need you now

I was lost in the garden of sin
Lonely drunk but I'm empty within
I was nothing, no, nothing without you

But you still always love me the same way
You beautiful fool
Oh, you still always love me the same way
You beautiful fool
Oh, oh, oh
Oh, oh
You still always love me the same way
You beautiful fool
Oh, you still always love me the same way
You beautiful fool
