

Don't Let Me Down

KeyWest

Everytime you say you got to go
There's a voice that's got to know
'Cause all of my love, yes all of my love is never enough for you
I remember all the clever games you played
Every excuse you ever threw my way
I guess all of my love, yes all of my love is never enough for you

I wanna know you now
You've got to show me how
I'm right here
Oh don't let me down
I'm in the lost and found
You've got to help me out
I'm right here
Oh don't let me down
Oh oh
Oh don't let me down
Oh oh

I know when you're here
You set my soul on fire
And I know when you're here
You set my world on fire

I wanna know you now
You've got to show me how
I'm right here
Oh don't let me down
I'm in the lost and found
You've got to help me out
I'm right here
Oh don't let me down

I wanna know you now
You've got to show me how
I'm right here
Oh don't let me down
I'm in the lost and found
You've got to help me out
I'm right here
Oh don't let me down

I wanna know you now (No don't you let me down)
You've got to show me how (No don't you let me down)
I'm right here (No don't you let me down)
Oh don't let me down (No don't you let me down)
I'm in the lost and found (No don't you let me down)
You've got to help me out (No don't you let me down)
I'm right here (No don't you let me down)
Oh don't let me down
Oh oh
