

## Hurts Like You

KeyWest

You've been my saviour  
You've been my truth  
You left me broken down, crying over you  
You're just so bad for me  
And I know it's true  
But I just keep coming back to open my wound

So don't you say it's over  
Don't say we're done  
You say it's nothing  
We're just having fun  
Don't you say you're sorry cause I know the truth  
I never found someone who makes me hurt like you  
I never found someone who makes me hurt like you

You've been my angel  
You've been my muse  
You've been the devil and I suffered your abuse  
You're just so bad for me  
But I still love you  
And I hate you too, all the shit you put me through

So don't you say it's over  
Don't say we're done  
You say it's nothing  
We're just having fun  
Don't you say you're sorry cause I know the truth  
I never found someone who makes me hurt like you  
I never found someone who makes me hurt like you

I'll run til I stop  
And love til I hate  
I'll stand until I fall  
And bend til I break  
You're just so bad for, my grave mistake  
My soul is wounded and I'm broken by hate

So don't you say it's over  
Don't say we're done  
You say it's nothing  
We're just having fun  
Don't you say you're sorry cause I know the truth  
I never found someone who makes me hurt like you  
I never found someone who makes me hurt like you
