

iGeneration

KeyWest

Oh, Steve Jobs you found a robot generation
Isaac Newton found an apple from a tree
Mr. Ford, he gave us modern transportation
But oh Steve Jobs is the only apple that I need

Do you ever wonder why we're here?

This is my iGeneration
This is my iGeneration

Yeah the son, he shone a bright light on the world
Graham Bell telephoned a friend from 50 feet
Big Ben Franklin found the key in a lightning storm
Oh Steve Jobs you found a way to do all three

Is it written in the stars for me?

This is my iGeneration
This is my iGeneration

I need you to help me speak my mind
And I need you to give me sleepless nights

This is my iGeneration
This is my iGeneration

This is my iGeneration
It's my time, iGeneration
This is my iGeneration
It's my time, iGeneration oh

iGeneration, oh
