

# Movie Love

KeyWest

Say a little prayer for me, tell me you'll be there for me  
If this is real I would rather live a dream than my reality  
So lets start a revolution, yeah  
Coz I'm sick of this confusion, yeah  
Our love is dead like a bullet to the head and there ain't no solution yet

We had a movie kind of love  
But now it's done

I wanna love someone in the middle of the night  
I wanna know it will be alright  
Because I'm tired of feeling, oh  
And I'm tired of grieving  
We had a movie love living in another life  
I wish we never even said goodbye  
So now I pick up the pieces, oh yeah  
I pick up the pieces  
Of my broken heart

So tell me do you know what side you're on, what are you hiding from  
Your friends say this and my friends say that but maybe we're both just wrong

We had a movie kind of love  
But now it's done

I wanna love someone in the middle of the night  
I wanna know it will be alright  
Because I'm tired of feeling, oh  
And I'm tired of grieving  
We had a movie love living in another life  
I wish we never even said goodbye  
So now I pick up the pieces, oh yeah  
I pick up the pieces  
Of my broken heart

If love's a work of art  
There is beauty deep in a broken heart

I wanna love someone in the middle of the night  
I wanna know it will be alright  
Because I'm tired of feeling, oh  
And I'm tired of grieving  
We had a movie love living in another life  
I wish we never even said goodbye  
So now I pick up the pieces, oh yeah  
I pick up the pieces  
Of my broken heart

We had a movie kind of love, oh yeah  
A movie kind of love  
But now it's done
