

Not This Day

KeyWest

Deliver me from expectation
Your sweet words are no good here
I raise my head and wake to dream again
But the point remains unclear

Now it's all gone wrong and Babylon is burning
I pray to God for the world to stop turning
End this day please, end this day
I can take anything, just not this day

Oh, oh, oh
I can take anything, just not this day

Standing among the crowd
Have to stop myself crying out
'Cause I've never felt so alone

So I wait for the storm to pass
I brace for my world to crash
And I pray for the strength to move on

Now it's all gone wrong and Babylon is burning
I pray to God for the world to stop turning
End this day please, end this day
I can take anything, just not this day

Oh, oh, oh
I can take anything, just not this day
Oh, oh, oh
I can take anything, just not this day

It's all 11 gone wrong and Babylon is burning
Pray to God for the world to stop turning
End this day please, end this day
I can take anything, just not this day

Oh, oh, oh
I can take anything, just not this day
Oh, oh, oh
I can take anything, just not this day
