

Salvation

KeyWest

See that girl
Her smiling face
Behind broken glass
And old picture frame

She was happy then
Oh, how life has changed
Now he comes home drunk
And he just lays the blame right on her face

But she still keeps her faith
Praying that one day
Salvation will come her way

She wants to run
But where will she go?
It's been a long long time
And this is all she knows

Another night
Another fight
Another tear falling from her eyes
And she lies on a hospital bed
Wondering if next time she will wind up dead

But she still keeps her faith
Praying that one day
Salvation will come her way

Does he hear you pray?
Does he come for you?
And when your heart breaks?
Will he come fight you?
I will give me life to stop you falling

I will be your light
When you need me
I will be your salvation
Your salvation
