

True North

KeyWest

Have you ever seen yourself?
Do you know who's in the mirror?
Are you going through some hell?
Are you a saint or just a sinner?
Are you too afraid to speak?
To let someone be your saviour? Mmm, mmm
Are you so afraid they're see
The ghost of all your failures?

Someone somewhere is just as lost
We're all finding our true north

I got lost out on the road
I don't know which way to go
Got lost out on the road
Oh, will someone point me home?

I should have listened to my father
And don't let life pass you by
Don't get caught up in the drama
It ain't as valuable as time
And when you need some help
Ain't much sense in hiding
You can't do everything yourself
There ain't no shame in crying

Someone somewhere is just as lost
We're all finding our true north

I got lost out on the road
I don't know which way to go
Got lost out on the road
Oh, will someone point me home?
'Cause I can't do this all alone

Got lost out on the road
I don't know which way to go
Got lost out on the road
Oh, will someone point me home?
I can't do this all alone
Will someone point me home?
I can't do it all alone, hey
Can someone point me home?
Someone point me home?

'Cause someone somewhere is just as lost
We're all finding our true north
